BUDDY CLUB

The Buddy Club Program is an initiative of Golf NSW developed to foster partnerships between large metropolitan and regional clubs with smaller affiliated organisations across the State.

The program's aim is to enhance the health of our affiliated clubs and the sustainability of the sport by building closer ties between organisations through shared resources, industry knowledge, business systems and a mutual understanding of the needs of the golf club industry.

Assistance that clubs can offer also includes access to unwanted/discarded equipment.

We are pleased to advise that the Cronulla Golf Club is our "Buddy"
